Please provide your comments on the proposed project in the space provided below:

Upon attending this meeting, it has become apparent to me that there is virtually no need to situate this power line along the I-25 Corridor or within Colorado City, CO at all. There are existing lines and possibilities for this line to the far eastern corridor which would best be utilized! Rangeland-non-populated areas would be best.
Do not place these lines along the much traveled I-25 highway, nor within any part of Colorado City. These lines should Not be placed near residences nor obstruct views.

I-317-001: Route Refinement > Calumet-Comanche (In Review)

Your email/letter/comment form has been received and your comment noted. Route refinement for the proposed project and mitigation measures will be addressed in the Environmental Impact Statement. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.
